Slight shade and size variations are inherent in all ceramic and glass tile products. Please examine carefully prior to installation. Use constitutes acceptance. In reference to use our products for commercial projects, be sure that the product selected met the specific norms and regulations of your individual state and/or country.

Ligeras variaciones en tonalidad y tamaño son inherentes a la cerámica y mosaico. Por favor, examinar cuidadosamente antes de instalar. No se aceptan reclamaciones de producto instalado. En relación al uso de nuestros productos para proyectos comerciales, asegurarse previamente de que el producto seleccionado cumple las normativas y regulaciones propias de su estado o país.

## CUSTOMIZED DESIGNS · DISEÑOS PERSONALIZADOS

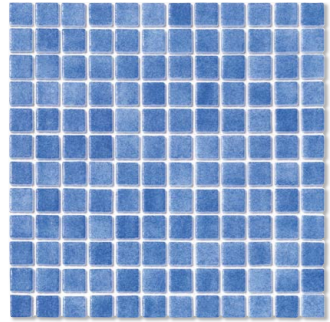

**CUSTOMIZED DESIGNS.** You can make blends from 2 or more colors of your choice, indicating the percentage of each. You get a totally customized composition. In [www.alttogglass.com](http://www.alttogglass.com) you will find a simulator to generate customized blends.

**DISEÑOS PERSONALIZADOS.** Elija la combinación de colores que desee, se pueden realizar mezclas de 2 o más colores de mosaico eligiendo los porcentajes de cada uno. En [www.alttogglass.com](http://www.alttogglass.com) encontrará un simulador de combinaciones.

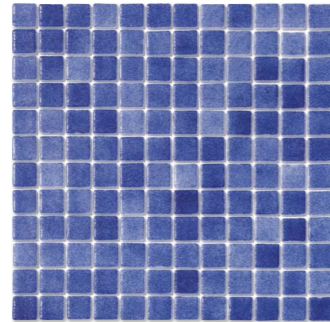

Customized designs and blends available only as Special Order in 1"x1" pieces. Call customer service for further information. Los diseños personalizados solo disponibles en mosaicos de 2,5x2,5 cm. Contactar el servicio de atención al cliente para mayor información.

**DAY**

The photoluminescence mosaic NIGHTGLASS from Alltglass is a coating made in a mix of basis glass with a phosphorescent pigment in a sintering process.

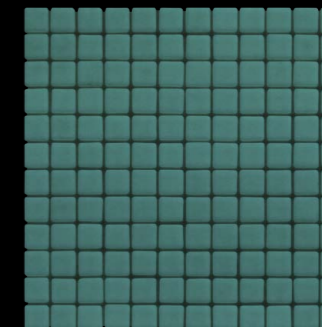

The photoluminescence materials have the capacity to absorb the ambient light, both natural or unnatural, keeping this light energy while receiving the light and when it turns down they will show this energy in a long luminescence way.

Our materials get a **high intensity** at the beginning.

The photoluminescence attributes are plenty assimilated in the ceramic tiles products increasing for this its durability and resistance in a significant way.

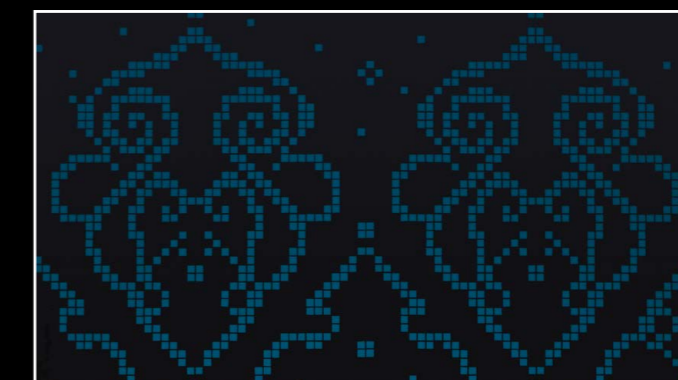

Ref. F4502 NIGHT GLASS BLUE

Ref. F4502 NIGHT GLASS BLUE

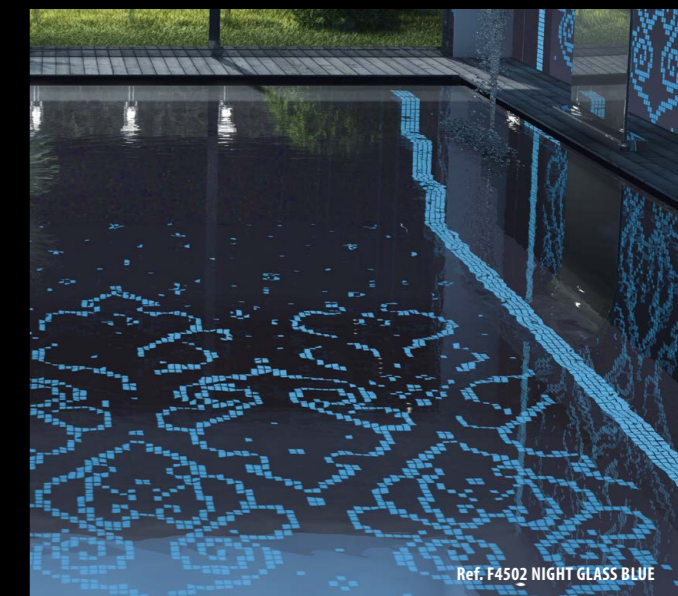

**NIGHT**

El mosaico fotoluminiscente NIGHTGLASS de Alltglass es un revestimiento fabricado a base de vidrio molido mezclado con un pigmento fosforescente sometido a un proceso de sinterización.

Los materiales fotoluminiscentes tienen la capacidad de absorber la luz ambiente, ya sea natural o artificial; reteniendo esa energía lumínica mientras sigan recibiendo luz y luego cuando dejan de recibirla van a exteriorizar esa energía en forma de larga luminiscencia, que en el caso de nuestros materiales tiene una ALTA INTENSIDAD inicial.

Las propiedades fotoluminiscentes se encuentran plenamente integradas en la cerámica aumentando con ello su durabilidad y resistencia de manera muy notable.

**Spread a coat of adhesive-based cement across the surface, ensuring that it is flat and even.**

Aplicar uniformemente el cemento cola sobre la superficie bien nivelada.

**Place the mesh-mounted mosaics on top of the cement and press them down with a rubber trowel to guarantee an even surface.**

Colocar la malla de mosaico sobre el cemento y ejercer presión con una llana de goma para igualar las piezas.

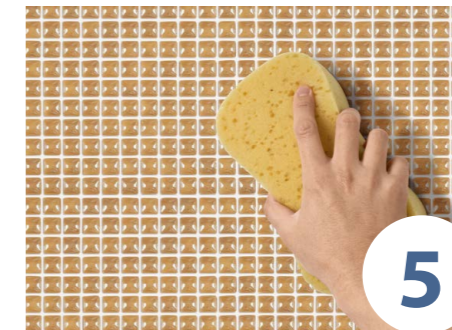

**Leveling all the pieces**

Nivelar todas las piezas.

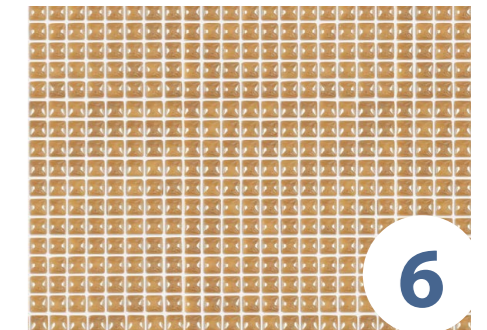

**Once it is dry, it can be grouted.**

Una vez esté seco procederemos a aplicar el material de rejunte.

**Lastly, clean the surface with a damp sponge and then with a dry cloth.**

Por último, limpiaremos la superficie con una esponja húmeda y posteriormente con un trapo seco.

**Final result.**

Acabado final.
